"EcoLocal Deliveries proved to be an excellent choice. The complexities arising from borough-wide drops and the wide variety of package types needed a high level of diligence in the delivery staff, and EcoLocal really performed here. They were a friendly and dependable team and the customer always reported a favorable point of contact." - Steer Davis Group

Retailers such as chemists and health food shops can use the service to deliver prescriptions and other goods to people's homes.

"We have been very impressed by their efficient and personal service. Neither the delicate nature of the product nor the quantities have proved any problem to them." Sutton Flowerscents.
